

Glove creature

You will need: two gloves; needle and thread; toy filler; wiggly eyes or buttons; glue.

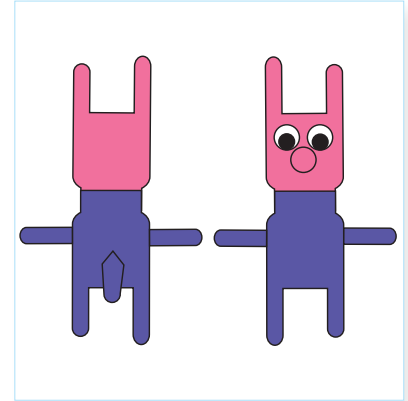

1. Turn both of the gloves inside out.

Using small running stitches, sew across the base of the middle two fingers. Then, sew across the base of the thumb.

2. Cut off the middle two fingers and the thumb of each glove. Turn the gloves right-side out.

Taking care to stuff the fingers, fill both gloves with toy filler.

3. Place the cuff of the glove for the body over the cuff of the glove for the head. Slip stitch in place.

4. Stuff two fingers and a thumb with toy filler. Tuck the cut edges of the fingers and thumb to the inside. Slip stitch the fingers to the sides of the body and the thumb to the back. You may wish to shorten a third finger and use it as a nose. Glue the eyes in place.

Even if you use large gloves, there is only approximately 40cm of hand sewing.
You can do that!
